## Come to Me

## Koop

Baby, I've been waiting for you Don't run away now You've got nothing to lose Baby, I feel so alone And I need someone To call my own'Cause my love has just left me And I need someone new Who can tell me forever And my eyes are on you Baby, oh baby, oh baby Come to meBaby, I've been waiting on you Don't run away now You've got nothing to lose Baby, I feel so alone And I need someone To call my own 'Cause my love has just left me And I need someone new Who can tell me forever And my eyes are on youBaby, oh baby, oh baby Come to me
