

# Already in Love (feat. Shawn Stockman)

## Tank

One look at you, I know I need it  
I could be true, I know I see it  
Wanna be down, when do I feed it?  
I'll ready now, where do we begin?  
I could be your soldier, girl  
Be your king and rule your world  
Try me so you know it's real  
I'm already sure about you and the way I feel You'll have a shelter in my arms  
Always be beautiful in my eyes  
What do you want, no matter how far  
My heart wants to love you for life I'm already, I'm already, I'm already in love  
I'm already, I'm already, I'm already in love  
I'm already, I'm already, I'm already in love  
I'm already, I'm already, I'm already in love with you  
Soon as we touch I know you feel it  
Hell of a high, cannot been kill it  
Not in a world shy, plan on seein' you  
We should do time, that's all I'm sayin'  
I could be your soldier, girl  
Be your king and rule your world  
Try me so you know it's real  
I'm already sure about you and the way I feel  
You'll have a shelter in my arms  
Always be beautiful in my eyes  
What do you want, no matter how far  
My heart wants to love you for life I'm already, I'm already, I'm already in love  
I'm already, I'm already, I'm already in love  
I'm already, I'm already, I'm already in love  
I'm already, I'm already, I'm already in love with you  
Love at first sight  
Don't it feel right?  
Like somethin we're supposed to be on  
Shit get real by a minute I don't understand  
Forever my girl I wanna be forever your man  
You'll have a shelter in my arms  
Always be beautiful in my eyes  
What do you want, no matter how far  
My heart wants to love you for life I'm already, I'm already, I'm already in love  
I'm already, I'm already, I'm already in love  
I'm already, I'm already, I'm already in love  
I'm already, I'm already, I'm already in love with you
