

# It Was Love

LANY

We were sixteen but I have  
Known you since second grade  
We were best friends but I have  
Wanted you in different ways We would pass notes in Science  
And I would end 'em with a heart  
We would pass the extra time in  
The back of my beat-up car It was love  
I know you know that  
It was us  
I wish I could go back  
To sneaking around at night  
And thinking we had our whole lives  
It was love  
I know you know that  
I don't think I ever told you  
I hated that it had to end  
But it was two months until you  
Started dating my best friend Never mind, this is stupid  
But I just had to say  
Even though I know you're married  
I think about you every day It was love  
I know you know that  
It was us  
I wish I could go back  
To sneaking around at night  
And thinking we had our whole lives  
It was love  
I know you know that  
It was love  
I know you know that  
It was us  
I wish I could go back  
To sneaking around at night  
And thinking we had our whole lives  
It was love  
I know you know that It was love  
It was us  
It was love  
It was us  
Sneaking around at night  
And thinking we had our whole lives  
It was love

I know you know that
