I Got Away With You

Luke Combs

Well I got caught in Panama City Tryin' to buy some beer for some Georgia girls And I got wore out by my daddy For stealin' cigarettes from the Smokes and more And all my friends would get away Seems I'd get caught, plain as day I look the blame for every little thingBut I got away with you And somehow l still ain't been found out It's a crazy truth Like l strolled out the gates of Alcatraz And I walked in the Louvre And the Mona Lisa's hanging in my house I bust out of Buckingham with the crown jewels And l got away with you Well lookin' like you do On its damn own, should be a crime Let alone a fool like me Hand in hand with you, should be doin' time But here we are runnin' free Guess someone turned the other cheek 'Cause there ain't no blue lights in the rear viewGuess I got away with you And somehow l still ain't been found out It's a crazy truth Like l strolled out the gates of Alcatraz And I walked in the Louvre Now the Mona Lisa's hanging in my house I bust out of Buckingham with the crown jewels And I got away with youI'll take it all, the fails, the falls The county jails and one phone calls I'do it all again if I had to 'Cause I got away with you Somehow girl, I still ain't been found out It's a crazy truth Like l strolled out the gates of Alcatraz And I walked in the Louvre Now the Mona Lisa's hanging in my house I bust out of Buckingham with the crown jewels And I got away with you When I got away with you Yeah, I got away with you
