

# When You're Falling

## Afro Celt Sound System

Everyday, you crawl into the night  
A fallen angel, with your wings set alight  
When you hit the ground  
Everything turns to blue  
I can't get through the smoke  
That's surrounding you  
Cause when you're falling  
I can't tell which way is down  
And when you're screaming  
Somehow I don't hear a sound  
And when you're seeing things  
Then your feet don't touch the ground  
Cause when you're falling  
I can't tell which way is down  
I can see through the clouds  
I can walk right through the walls  
Hang me off the ceiling  
But I can't take the fall  
Should have crossed the river  
But I may get swept away  
Out there on the water  
You can still see me wave  
Cause when you're falling  
I can't tell which way is down  
When you're falling  
I can't tell which way is down  
I keep seeing all those things  
My feet don't touch the ground  
Cause when you're falling  
I can't tell which way is down  
And when you're screaming  
Somehow I don't hear a sound  
And when you're seeing things  
Then your feet don't touch the ground  
Don't touch the ground  
Cause when you're falling  
I can't tell which way is down  
And when your screaming  
Somehow I don't hear a sound  
I don't hear a sound  
I can't hear a sound, I can't hear a sound  
No sound

Cause when you're falling  
I can't tell which way is down  
And when you're screaming  
Somehow I don't hear a soundCause when you're falling  
I can't tell which way is down  
And when you're screaming  
Somehow I don't hear a soundCause when you're fallingCause when you're fallingCause when  
you're fallingWhen you're screaming  
Somehow I don't hear a sound
