

Come Thru

Summer Walker & Usher

We got London on da Track
I should've known better
Can't even pretend like I don't want?it?
again

On the brain?all the time
Thinkin' of all the?things that we did
You did somethin'
'Cause shit like this don't happen too often
It's the way you put it down
I don't want no one else around
Got me takin' a step on the wild side

Cuttin' all ties
With them other guys
Way you, way you look in my eyes
Lovin' me nice and slow
You make me wanna come through

Quarter after two
Just to put it down on you
You make me wanna replay
All of the things
That you and me, we do
You make me wanna come through

Quarter after two
Just to put it down on you
You make me wanna replay
All of the things
That you and me, we do

Tell me what you make me wanna do
I'll drop all my niggas for you
Got my feelings runnin' on the loose
This ain't what I'm really used to
(You make me wanna, wanna, wanna)
Before anything happens between us

Be sure you're ten toes down before I pull out this car (Pull it)
And the only thing that's comin' beside me
Got the situation issue waitin' and get some more (Oh, get it)

I told you, I'ma take your place (Whoa)
'Cause I seen it in your face (Yeah-yeah)

And I knew that you would say this
So how you wanna play this?

Yeah, you got somebody (Yeah)

I been in this predicament (Uh)

Don't trip, just creep discrete

That's just what we dealin' with
You make me wanna come through (You make me wanna,
wanna)

Quarter after two
Just to put it down on you
You make me wanna replay (Oh)
All of the things (Oh)
That you and me, we do (Woo) You make me wanna come through (You make me wanna,
wanna)
Quarter after two
Just to put it down on you
You make me wanna replay
All of the things (All of the things)
That you and me, we do (Ooh)
Look at what you make me wanna do (Oh)
I'll drop all my niggas for you (For sure)
Got my feelings runnin' on a loop (Ooh, baby)
This ain't what I'm really used to (You make me wanna, wanna, wanna)
Ain't what you used to, but you used to
Oh, oh
Oh
(You make me wanna, wanna, wanna) New relationship too, this is what you do
Think about her, cuddle up
Love her
