

# Stone (feat. Sebastian Kole)

Alessia Cara

So much on my mind, I think I think too much  
Read between these lines, unspoken weight of words  
But time comes to rest when you are by my side, it blurs And I will follow where this takes me  
And my tomorrows long to be unknown  
When all is shaken, be my safety  
In a world uncertain, say you'll be my stone Change in every wind  
The sands of time don't know our name  
Oh nothing's sure, but surely as we stand  
I promise I will stay the same  
And I've never seen forever  
But I know we'll remain  
And I will follow where this takes me  
And my tomorrows long to be unknown  
When all is shaken, be my safety  
In a world uncertain, say you'll be my stone  
(Oooooooh oooh oooh)  
Be my stone  
In a world uncertain, say you'll be my stone Oh steady me, be my source of gravity  
While my world's unraveling  
Say you'll never change, oooooohhh!!! Oh!  
And I will follow where this takes me  
And my tomorrows long to be unknown  
When all is shaken, be my safety  
In a world uncertain, say you'll be my stone  
(Oooooooh oooh oooh)  
Be my stone  
In a world uncertain, say you'll be my stone
