

# Through These Eyes

## Social Distortion

Through these eyes  
I've seen love and I've seen hate  
I've seen the violence and the tearsThrough these eyes  
I got my schooling on the streets  
I've seen the things in life you don't wanna seeThrough these eyes  
I've seen the shape of things to come  
And I've watched them all fall apartThrough these eyes  
I've seen the broken homes they cry  
I've seen the poor man's face as he stands in line  
And though my heart has made me weary  
On a road less travelled on  
Through the heart it hurts so dearly  
And the pain it lingers onThrough these eyes  
I've looked the devil in the face  
And I've seen god's holy graceThrough these eyes  
I've tried to walk the straighter line  
I found myself again  
I nearly lost my mindAnd though my heart has made me weary  
On a road less travelled on  
Through the heart it hurts so dearly  
And the pain it lingers on  
And though my heart has made me weary  
On a road less travelled on  
Through the heart it hurts so dearly  
And the pain it lingers on
