

Never Forget You (feat. John Legend)

Lupe Fiasco

Take me to that old familiar place
Take me to memories we wont erase
Take me to all that we had
The good and the bad
I'll never forget you
I'll never let you go
I'll never forget you
I'll always remember
I hope you know
Yeah Yeah Yeah Yeah
Let the record reflect the records we set
Best foot forward for every step
Let's push towards it. Never regress
Let's remember, if ever we get
down, the places that we came from 'round
And all the good times on the bad side of town
The up side of bad flip it upside down
Came from the bottom but we up high now
Believe and from this view we achieved
We look back at the rules we received
And how we broke those, dismantled and rewrote those
And the ghost still alive in the photos
Sounds of the summer didn't go wise
Cold wind blowin' through a city on fire
Moments of the past came here to find you
Not to relive them, just to remind you
Take me to that old familiar place
Take me to memories we wont erase
Take me to all that we had
The good and the bad
I'll never forget you
I'll never let you go
I'll never forget you
I'll always remember
I hope you know
Yeah Yeah Yeah YeahLet the evidence show the future's so bright
It's never been more, not like tonight
We walk into the glow, right into the light
The past all around us, the time of our life
The first love kisses, the broke heart disses
This is just like a first class ticket
Back to the first written rap

Crumbled up paper and a pen with no cap
The hand-me-down clothes and the unturned hat
The hookers on the corner and the kids selling crack
The needles in the yard where we used to play catch
Stories from the projects we could never go at
Or to. These are shades of my youth
Trials of a child, everything truth
Moments of the past coming back to find us
Not to relive them just to remind us Take me to that old familiar place
Take me to memories we wont erase
Take me to all that we had
The good and the bad
I'll never forget you
I'll never let you go
I'll never forget you
I'll always remember
I hope you know
Yeah Yeah Yeah Yeah Everything cherished, Remembered in my heart
You will never perish, You will never part
I'll tell em all about you, drummin' in the park
We put you in the ground but I see you in the stars
Go on take a bow, a round of applause
The best that ever- always ready we are
Love always shines, that's how I'll find you
In case you forgot, I hope this reminds you now. Take me to that old familiar place
Take me to memories we wont erase
Take me to all that we had
The good and the bad
I'll never forget you
I'll never let you go
I'll never forget you
I'll always remember
I hope you know
Yeah Yeah Yeah Yeah
