

Year Zero

Moon Taxi

Getting out while we can
Waves are crashing on the sand
Wash away with the tide
Or walk away right by my side We're on our own
You and me together
We will make it known
And sing out forever Someday someday
Out of the dark we go
Someday someday
Into the year zero
Pick me up when I'm down
Get my feet back on the ground
Holding on with our hands
I need you here to help me stand We're on our own
You and me together
We will make it known
And sing out forever
Someday someday
Out of the dark we go
Someday someday
Into the year zero
We'll do it on our own
