

More of You

Chris Stapleton

When I think of you and the first time we met
And I heard the sound of your sweet gentle voice
My heart took me over and gave me no choice
And right then I knew
It makes me want more of you
Again and again
I fall more in love with you
Than I've ever been
From the moment you wake me up
Til you kiss me goodnight
Everything that you do
It makes me want more of you
When I look at you now the years have gone by
I think of the memories that time can't erase
And all of the smiles that you've brought to my face
Your love's been so true
It makes me want more of you
Again and again
I fall more in love with you
Than I've ever been
From the moment you wake me up
Til you kiss me goodnight
Everything that you do
It makes me want more of you
When I leave this earth you'll be holding my hand
And it gives me comfort to know you'll be there
And I'll thank the Lord for the love that we've shared
You're heaven to me
It makes me want more of you
Again and again
I fall more in love with you
Than I've ever been
From the moment you wake me up
Til you kiss me goodnight
Everything that you do
It makes me want more of you
Everything that you do
It makes me want more of you
