

# All the Way

## Ledisi

It's one of those days when life's got me down  
Where are you now, I'm needing you  
You say the right thing and everything is wonderful  
Take all my scars and my broken heart  
Promise that you will cover me  
Give me your word, say it's not make believe Love me, with all of your heart  
Will you love me when things get too hard?  
And I need you more, make sure you're sure  
That you'll love me all the way  
Show me that you'll take care of me  
Will you show me, that I'm your everything  
And I'll be yours, make sure you're sure  
That you'll love me all the way  
When I feel nothing, like I am nothing  
When I have nothing but love, will you stay  
Will you be the same when everything's not beautiful  
I'm not perfect, but I'm worth it  
Love me all the way 'cause I deserve it  
I'll give everything to you, but you gotta make me believe Love me, with all of your heart  
Will you love me when things get too hard?  
And I need you more, make sure you're sure  
That you'll love me all the way  
Show me that you'll take care of me  
Will you show me, that I'm your everything  
And I'll be yours, make sure you're sure  
That you'll love me all the way  
I know I ask for too much  
Even oddly enough, 'cause this is bigger than us  
Love you from now till the end  
When time runs out we'll start again  
All that I'm asking of you is Love me, with all of your heart  
Will you love me when things get too hard?  
And I need you more, make sure you're sure  
That you'll love me all the way  
Show me that you'll take care of me  
Will you show me, that I'm your everything  
And I'll be yours, make sure you're sure  
That you'll love me all the way  
Love me all the way  
All the way, yeah  
All the way
