

# Leavin' the Light On

Darius Rucker

Carolina moon, lazy ol' river  
Time keeps floatin' on by  
Moss hanging from an oak tree  
Baby it's just you and me  
Sure makes one beautiful sight  
We got postcard views  
Curled up in this rocking chair  
Feel like I ought tip my hat  
To the man up stairs Burning the whole night through  
So I can look at you  
Your pretty brown eyes  
Your legs that go forever  
Still can't believe you're mine  
Come on baby lets take a walk  
Follow the path down to that old dock And bring along that bottle of wine  
That old moon's so bright  
Just hang in' up there  
Feel like I ought count' my blessings  
And thank the man upstairs for Burning the whole night through  
So I can look at you It's getting kinda late girl  
Lets go back to the house  
I wanna watch you from my pillow  
Til morning rolls around so I'm  
Burning the whole night through  
So I can, So I can see you  
Oh I wanna look at you o so I'm  
I'm Leavin' the light  
Oh it's burnin', oh it's burnin' through  
Oh, it's burnin' through yeah I'm Leavin' the light on  
I'm Leavin' the light on  
So I can look at you
