Fifteen (feat. Chela) [Rotkraft Remix]

Goldroom

It's been a long time
Wondering why
The summer smells like sin and wonder
Feels like it
Got inside of
A place and time I dream about when
I get a walk in

I'll let us always
The summer sun I can't go back to
The touch of your skin

On my skin
Look always the sun's above us
Now you know we'll look back in time
But we were only fifteen
Fifteen we're floating through the slipstream

You're with me We were only fifteen

Fifteen just floating through the slipstrem It's been a long time

Wondering why

The summer smells like sin and wonder

Feels like it Got inside of

A place and time I drean about when

I get a walk in

I'll let us always

The summer sun I can't go back to

The touch of your skin

On my skin

Look away the sun's above us Now you know we'll look back up in time

But we were only fifteen

Fifteen we're floating through the slipstream

You're with me

We were only fifteen

Fifteen we're floating through the slipstream
