

# Say the Words

## Usher

I had a dream when I was just a little boy  
To find a girl like you  
We would meet at the park at school  
And talk till the day was through  
.take a pair of tones  
And I would comb your hair  
And you would dream of all the cities  
And places we could go Oh, oh, oh  
Say the words that you know I won't hear  
Put your heart out close to my ear  
We would live to know the time  
We could stay till the days turns in night.  
I can still remember dreams as a little boy  
Now I'm man, and still can't...  
Hey, hey, hey  
Real love it will never come, if you in it now  
But I had to learn that lesson down in the...  
...spend the night in the town just to have a little fun  
In my mind I'm wishing she's the one  
(I said to myself)  
Is this to close to reality  
For you to be that girl from that fantasy Oh, oh, oh  
Say the words that you know I won't hear  
Put your heart out close to my ear  
We would live to know the time  
We could stay till the days turns to night.  
She stole my head and let's go play the dream again  
Uh, uh, to find a girl like you  
(Only you and me around!)  
I look into your eyes  
I'm not seeing...  
I look into your eyes  
I'm not seeing...  
Love is pure! Oh, oh, oh  
Say the words that you know I won't hear  
Put your heart out close to my ear  
We would live to know the time  
We could stay till the days turns in night. This is dedicated from the ...  
I would never, never, never know!
