

# The First Time (feat. Rudy)

## Dirty South

The first time, it was deeper than ever  
Like sunrise, burning on forever  
My heart's on fire, I felt you from far away  
The first time, it was deeper than ever  
I felt nothing til I found you  
I felt nothing til I found you  
I felt nothing til I found you  
The first time, it was deeper than ever  
So high, gone where eagles never been  
Soar through the skies, the world's so far away  
The first time, it was deeper than ever  
I felt nothing til I found you  
I felt nothing til I found you  
I felt nothing til I found you  
I felt nothing til I found you  
I felt nothing til I found you  
I felt nothing til I found you  
I felt nothing til I found you  
I felt nothing til I found you  
I felt nothing til I found you  
I felt nothing til I found you  
I felt nothing til I found you  
I felt nothing til I found you  
I felt nothing til I found you  
I felt nothing til I found you  
I felt nothing til I found you
