

X-Static

Foo Fighters

leading everything along
never far from being wrong
nevermind these things at all
it's nothingcouldn't find a way to you
seems that's all I ever do
turning up in black and blue
rewardedall the static we all left
wait until the time has come
figure that's where time comes from
leaving all my senses numb
is heaven
lifted up the fay to seen
anything could never be
anything but play to me
in ordertake it back for them to keep
fallen into something deep
not that I had made that leap
annointed
where have all the wishes gone
now that all of that is done
wish I would've felt I've won
for once
