

# Let Me Keep You (feat. Robert Glasper)

**Morgan James**

All their last steps have undone you  
All the truths you forced away  
All the good you ever tried to do  
All you knew but could not say So you don't have to  
So you don't have to  
Let me keep you  
Let me keep you What you had so close so long  
You don't have to hold alone  
It can burn us both  
But I'm not afraid  
Give it to me  
I'll make it my own  
So you don't have to  
So you don't have to  
Let me keep you Everything you never let go  
Give it to me, I'll make it my own
