## The Vulture

## **Pendulum**

It's the rise of the vulture I'm feeling the panic All those who are nervous With loss of dynamic Your mind's been poisoned If your heart is sour Hear the sound of the war drumsWe're taking your power (We're taking your power) We're taking your power (We're taking your power)It's the rise of the vulture Gonna keep on climbing No chance of escape No use in hiding Into the eye of the storm With the silver lining To the point where it breaks Gonna keep on grinding(We're taking your power) We're taking your power (We're taking your power)Overboard, under pressure Overboard, under pressure Overboard, under pressureWe're taking your power (We're taking your power) We're taking your power (We're taking your power) We're taking your power (We're taking your power) We're taking your power (We're taking your power)
