

# Nobody (feat. Kanye West)

## Chief Keef

(If I can't fear nobody  
I bet I can't just talk to them)  
I don't fear nobody  
I can't hear nobody  
I can't see nobody  
Can't compete with nobody no  
Nobody  
Nobody  
(You really don't understand do you?)  
Fear nobody  
Fear nobody  
I brought my shotty right up in the party  
No bodyguard, just see the squad and me  
What's in my pockets, I brought Ben Franklins with me  
What's in my house, 7, 000 square feet  
My bank account, I swear it's no telling  
All type of amounts, just so I get spending  
What's all around, fake niggas act friendly  
Cause I'm on now, gotta keep it near me  
Cause niggas are smile, but really befriend me  
Bitches act down, but really ain't into me  
They just want my count, heard I got them milli's  
Can't go like that now, I'ma keep it pimpin'  
Pistols all around, don't try catch me slippin'  
Remember my mama used to warn me  
Now I can buy her ass anything  
I don't fear no one  
War time, I'm gon' give me one  
Where I'm from you gotta walk 'round with your gun  
But I made it out, just to get some money  
(You really don't understand do you?)  
Now I'm riding what I want  
Fuckin' any thot I want  
I be buying any thing I want  
Remember when I was broke  
(You really don't understand do you?)  
They thought I was a joke  
(You really don't understand do you?)  
That money, I was so in love withh you  
Til' I die, I'ma sing to you djd  
Cause I love you, I wanna be with you

(You really don't understand do you?)8
