

# A Good Night

John Legend & BloodPop®

I had no intention I would get fucked up tonight  
When I looked in your eyes and they went through me like a knife  
I came here with my crew, I lost them  
Came with my cool, I dropped it  
And if I'm being honest  
I'm being honest I can't think when you're looking like that  
Can't breathe when you're moving like that  
Tell me when you're gonna do me like that (yea)  
I'm too weak and I never like that  
Light-speed and I think I might crash  
One trip down and I'll never go back But everything's gonna be alright  
I think I just met my wife (yeah, I said it)  
I know it's gonna be a good night  
I think I just met my wife (alright)  
Maybe it's the music or the red stain on your lips  
I wonder when's the right time to go in for a kiss  
But I'm thinking past that lover  
I'm ready to meet your momma  
If I'm being honest  
I'm being honest I can't think when you're looking like that  
Can't breathe when you're moving like that  
Tell me when you're gonna do me like that (yea)  
I'm too weak and I never like that  
Light-speed and I think I might crash  
One trip down and I'll never go back But everything's gonna be alright  
I think I just met my wife (yeah, I said it)  
I know it's gonna be a good night  
I think I just met my wife (alright)  
Baby, baby, baby  
You got me talking crazy  
I figure if I say it  
You just might be my lady  
Baby, it's you, yeah  
Baby, it's you, yeah  
And oooh, I feel like something good is 'bout to be going on  
And baby it's you, yeah  
And baby it's you, yeah And everything's gonna be alright  
I think I just met my wife  
I know it's gonna be a good night  
I think I just met my wife (c'mon)  
And everything's gonna be alright  
I think I just met my wife (sing it with me) I know it's gonna be a good night

I think I just met my wife (alright, c'mon)  
Everything's gonna be alright  
I think I just met my wife  
I know it's gonna be a good night  
I think I just met my wife (c'mon)
