

I Need Your Love (feat. Trey Songz)

Ace Hood

Featuring Trey Songz
I need your love, need your love
See me at the mall chillin with a lady
So fine she my hey baby
I need your love, need you love
Just right my type what I like
You're dressed that nice and we kick it tonight
Just tryna get right for the end of the night
Shots of lean just to clear my mind
Baby I'm a séance, tell me what you're sign
From the bottom to the top, girl you're just my kind
I need your love, need your love
Got my mind so blown blaze so what?
Showin up, wait til we hold up
Her love, I didn't know I really need that
Can't live without it, I need rehab
From the pretty lipstick, thinking how to waste it
So fit but her ass need a D cal
Main weather with the stake at the beat down
Throw it back, I'mma snatch you like a rebound
What's that? Yea shorty like a grayhound
What up, do it there mama from the D town
Girl I need your love it's like fresh air
Kick it with a young prince like Bel Air
It's as strong but you never do a farewell
They steal but they never keep in touch still
See you bad as hell and they know it
Fresh up out of the shower with that lotion
Bend it over, you might cause a commotion
Reminiscin how I'm swimming in your ocean
Go ahead lil mama cut the slack up
On them with he fly red bottoms
Me and you make sense, get them other boys pissed
Cuz they already gatto
Cuz I need that love
Swear it's something like a drug
Come fucks with a thug
From the bed to the top
I need your love, need your love
See me at the mall chillin with a lady
So fine she my hey baby
I need your love, need you love
Just right my type what I like

You're dressed that nice and we kick it tonight
 Just tryna get right for the end of the night
 Shots of lean just to clear my mind
 Baby I'm a séance, tell me what you're sign
 From the bottom to the top, girl you're just my kind
 I need your love, need your love
 Got my mind so blown blaze so what?
 Showin up, wait til we hold up That's right shorty welcome to the good life
 We can do dinner time if the mood right
 Underwater with the stars and the mood right

 Upgraded, hand bastard, we burkin
 Credit cards going hard up in emans
 I can't wind B, I really mean that
 That's my sense of humor eh
 See I'm really like tryna pursue your boy
 I know your last boyfriend was a loser eh

 Take you anywhere you wanna, I'm the guy that can
 Hopin for the chance
 I can give you my time for your love in advance
 And it's all at demand
 So shorty what you sayin?
 Money ain't the same
 Leo mama you can trip to the land

Fuckin with my shades on, call me Stevie Wonder
Put it so deep, she can feel it in her stomach
Bitch so good, I can tell her when she run it
Eyes rolled back, I can tell it when you're coming
Song ain't me, I can tell that she love Just tryna get right for the end of the night
Shots of lean just to clear my mind
Baby I'm a séance, tell me what you're sign
From the bottom to the top, girl you're just my kind
