

Tell Me, Tell Me

Tyrese

I see you (see me) and it hits hard (indeed)
You're standing (so close) oh but yet so far (from me)
I try to (speak up) oh but, no words to say
I'm fearing (you'll leave) and you'll get away[Chorus: x2]
(So baby tell me, tell me, tell me, why I)
Why I don't try (When I) When I know that you're so fine
(But I) Have a hard time You make me (make me) feel like no one can, like a man
Your body (so sweet) could be my best friend, oh damn
Not that it's (it's the) the only thing I need or want
But really (you can't) girl you can't blame me so don't
[Chorus]
I know that you want to be with me
Girl I want you bad
So desperately baby I am trying hard to wait for you
Till I find out why
Don't you leave my eye sight[Chorus]
