This Time

Carrie Underwood

Maybe it's the way that the stars are aligned
That's makin' me feel this way tonight
Maybe it's the words you left unsaid
Maybe it's the stardust in my headBut I wanna tell ya
That my heart is busting at the seams, yeah and

I can't wait another minute Life is short, love is sweet

Ain't no time like this time babyMaybe it's the way that the night is still

Or the sound of the rain on my windowsill

That's making all the pieces fit Makin' it all make perfect sense

But I wanna tell ya

That my heart is busting at the seams, yeah and

I can't wait another minute

Oh, life is short, love is sweet

Ain't no time like this time babyOoh, yeahGoes by so fast

Can't get it back

There ain't no time

Like this timeYeah, I just wanna tell ya

That my heart is busting at the seams, yeah and

I can't wait another minute

Oh, life is short, love is sweet

Ain't no time like this time babyMy little baby

Maybe it's the way that the stars are aligned

And there ain't no time

Ain't no time

Ain't no time

Like this time babyOoh yeah

Maybe it's the way that the night is still

Or the sound of the rain on my windowsill, yeah, yeah
