

# Great White Buffalo

Ted Nugent

Well, listen everybody  
To what I got to say.  
There's hope for tomorrow,  
Ooh, we're workin' on today.  
Well, it happened long ago,  
In the new magic land The Indian and the buffalo  
They existed hand in hand  
The Indian needed food,  
He needed skins for a roof.  
But he only took what they needed, baby  
Millions of buffalo were the proof  
Yeah, it's all right But then came the white man,  
With his thick and empty head.  
He couldn't see past the billfold,  
He wanted all the buffalo dead.  
It was sad... It was sad. Oh yeah  
Yes, indeed  
Oh, yes It happened a long time ago, baby.  
In the new magic land.  
See, the Indian and the buffalo  
They existed hand in hand  
The Indians, they needed some food,  
And some skins for a roof  
They only took what they needed, baby.  
Millions of buffalo were the proof, yeah.  
But then came the white dogs,  
With their thick and empty heads  
They couldn't see past the billfold  
They wanted all the buffalo dead Everything was so sad When I looked above the canyon wall  
Some strong eyes did I see  
I think it's somebody comin' around  
To save my ass, baby  
I think- I think he's comin' around  
To save you and me. Boys  
I said above the canyon wall.  
Strong eyes did glow  
It was the leader of the land, baby Oh my God,  
The great white buffalo!  
Look out! Look out! Well, he got the battered herd  
He led 'em 'cross the land  
With the great white buffalo,  
They gonna make a final stand The great white buffalo

Comin' around to make a final stand. Well, look out here he comes.  
The great white buffalo, baby.  
The great white buffalo  
Look out, here he comes  
He's doin' all right  
Makin' everything all right Yeah, yeah, yeah
