## Low

## Josh Auer

Everybodys watching Blurring out of view Im low low Scary just how often Pushing comes to show Im low lowWith you Im someone tooFloating in the ocean Drifting far away Im low low Tell me there is sunshine Dancing with the rain Im low low With you Im someone With you Im someone too Feeling like a stranger In a foreign land Im low low Standing like an orphan Here without a name Im low lowWith you Im someone With you Im someone With you Im someone too
