

Done

Chris Janson

Done

The first time I saw you, done
Like the first dance was through, I was done That one kiss, I knew
There was nothing I wouldn't do
Just to give you That house on a hill with a four-plank around it
Every last breath till the last star is counted
Just say the word girl, paint me, you're perfect
I won't quit till the good Lord says my work is done
Like a faded out song on the radio, done
Like the cowboy gets the girl when the curtains roll
I'll give you a lifetime of days in the sun
Whatever you need and you want, I won't stop till it's done

Done

All the hell I was raising, done
All the careless heartbreaking, done
For the chance that you'll taken
I spend my nights praying
And all my days chasing That house on a hill with a four-plank around it
Every last breath till the last star is counted
Just say the word girl, paint me, you're perfect
I won't quit till the good Lord says my work is done
Like a faded out song on the radio, done
Like the cowboy gets the girl when the curtains roll
I'll give you a lifetime of days in the sun
Whatever you need and you want, I won't stop till it's done You know I won't stop till it's done
You need a man you can lean on, done
You need some faith you can hang your dreams on
Check 'em off one by one
In that house on a hill with a four-plank around it
Every last breath till the last star is counted
Just say the word girl, paint me, you're perfect
I won't quit till the good Lord says my work is done
Like a faded out song on the radio, done
Like the cowboy gets the girl when the curtains roll
I'll give you a lifetime of days in the sun
Whatever you need and you want, I won't stop till it's done Baby, I won't stop till it's done
Oh, you know I ain't done
First time I saw you, done
