

Night Train

Amos Lee

I've been workin' on a night train
Drinkin' coffee takin' cocaine
I'm out here on my night train
Tryin' to get us safely home Well in a little country station
Somewhere out in the midwest
I see the people out there waiting
Heart beating in my chest And I'm thinking 'bout a woman
Who I put no one above
I'm not lookin' to replace her
Just need someone to love While I'm out here on my night train
Drinkin' coffee takin' cocaine
I'm out here on my night train
Trying to get her safely home
Well I'm livin' in the city
Where the noise it never stops
Hammers pounding on the pavement
Whistles from traffic cops Nobody looks you in the eye here
Walkin' 'round with clenched fists
I been searchin' for a simple place
Don't know if it exists Sunrise out there callin' my name
I can see her movin'
I can see her movin' Well at a certain time of night now
I become one with the wind
Where there isn't a beginning
And there is no end
Oh and everything is flowing
Everything is on time
I know that we're all going
To the end of the line And I'm out here on my night train
Drinkin' coffee takin' cocaine
I'm out here on my night train
Trying to get her safely home Yeah I'm out here on my night train
Drinkin' coffee takin' cocaine
I'm out here on my night train
Trying to get safely home
Trying to get safely home
Trying to get safely home
