

# Domestic, Light and Cold

Dierks Bentley

Hey bartender, can I make one special request?  
My woman left me so tonight I'll be drinkin' your best I'm not talkin' about Single Malt, Scotch,  
Jagermeister or Cuervo Gold  
I'll take anything domestic, light and cold Domestic, light and cold, that's what I'm havin'  
Serve me up any old iced down American classic Pop a top, crack a can, just don't make me  
wait too long  
I'll take anything domestic, light and cold No, I wasn't cheatin', she just said that I was hard to  
please  
And I'll admit it, that I can be set in my country ways  
So go ahead and break out the good stuff, if I can be so bold  
I'll take anything domestic, light and cold Domestic, light and cold, that's what I'm havin'  
Serve me up any old iced down American classic Pop a top, crack a can, just don't make me  
wait too long  
I'll take anything domestic, light and cold You've got beer from all over the world on the wall  
I can even get a free T-shirt if I try them all  
But tonight I'm in the mood for some of that home grown booze Yeah, pop a top, crack a can,  
just don't make me wait too long  
I'll take anything domestic, hey I know what the best is  
Anything domestic, light and cold  
Bartender, I'll take anything domestic, light and cold, over here  
Well, hello over there, that's something domestic, light and hot  
Daddy likey, hi there, you, you like country music?  
Oh, yeah, dude, we can't say daddy likey, can we?
