

# Play

## Jax Jones & Years & Years

[Intro]

All alone

Till you play me the song that will make me belong to you

Wanna dance

With my baby tonight and we'll dance till the night is through

What you, what you gon' do[Verse 1]

I used to be so ready to run

My philosophy don't let nobody come too close

To handle my love [?]

I wanted to be you[Pre-Chorus]

Diving in to my ocean

A brand new emotion come true

Don't let this night, don't let this night go

[Chorus]

All alone

Till you play me the song that will make me belong to you

Wanna dance

With my baby tonight and we'll dance till the night is through[Post-Chorus]

Play me the song, me the song

That will make me belong

Play me the song, me the song

That will make me belong

Play me the song, me the song

That will make me belong

Play me the song, me the song

That will make me belong

[Verse 2]

Another chance to make it alright

No circumstance could ever break this

This love you have forever on me

On me, on us[Pre-Chorus]

Diving in to my ocean

A brand new emotion come true

Don't let this night, don't let this night go[Chorus]

All alone

Till you play me the song that will make me belong to you

Wanna dance

With my baby tonight and we'll dance till the night is through[Post-Chorus]

Play me the song, me the song

That will make me belong

Play me the song, me the song

That will make me belong

Play me the song, me the song  
That will make me belong  
Play me the song, me the song  
That will make me belong[Bridge]  
Till the night is through  
And you play me the song  
Till the night is through  
And you play me the song (that will make me belong)[Chorus]  
All alone  
Till you play me the song that will make me belong to you  
Wanna dance  
With my baby tonight and we'll dance till the night is through[Post-Chorus]  
Play me the song, me the song  
That will make me belong  
Play me the song, me the song  
That will make me belong  
Play me the song, me the song  
That will make me belong  
Play me the song, me the song  
That will make me belong
