

Find Our Way (feat. Klei)

Midnight Kids

Wait outside, you said you won't be long
Took your time
Bracing mine, I know that there's something wrong
Wonder why Tell me why, tell me why
No one else, it's you and I
Tell me now, talk it out
He didn't like I did notice, notice, no I think you should know
You don't have to stay
Even if you go, I'll be okay
We take it slow,
Till there's nothing left to say
Even if you go,
We'll find our way
Find our way
Find our way
I think you should know
You don't have to stay
Even if you go, I'll be okay
We take it slow,
Till there's nothing left to say
Even if you go,
We'll find our way
Find our way
Find our way Don't look back,
We got thrown into this
Just like that
Living fast, I know we're new to this
Learn to last, oh ooh Tell me why, tell me why
No one else, it's you and I
Tell me now, talk it out
He didn't like I did notice, notice, no
I think you should know
You don't have to stay
Even if you go, I'll be okay
We take it slow,
Till there's nothing left to say
Even if you go,
We'll find our way
Find our way
Find our way I think you should know
You don't have to stay
Even if you go, I'll be okay

We take it slow,
Till there's nothing left to say
Even if you go,
We'll find our way
Find our way
Find our way
