

Long Live

Florida Georgia Line

Yeah, it's a Friday night, we circled up
It's going down 'round these pickup trucks
Yeah, it's cold cans and Dixie cups
Just out here doing what we've always done Long live all the small towners
Sunup to sundowners
That old school Haggard and Hank
Long live longneck bottles
And wide-open throttles
And old dirt roads with no name
Long live them country girls, long legs in cut up jeans
Long live this way of life, long live nights like these
Long live, long live, long live, long live nights like these
Long live the Walmart parking lot
Turning to the midnight party spot
Long live hard work, when it pays off
And living it up on your days off Long live all the small towners
Sunup to sundowners
That old school Haggard and Hank
Long live longneck bottles
And wide-open throttles
And old dirt roads with no name
Long live them country girls, long legs in cut up jeans
Long live this way of life, long live nights like these
Long live, long live, long live, long live nights like these Long live them glory days, on them
back forty days
All them pass it 'round, pass it down story days
Long live all the small towners
Sunup to sundowners
That old school Haggard and Hank
Long live longneck bottles
Wide-open throttles
And old dirt roads with no name
Long live them country girls, long legs in cut up jeans
Long live this way of life, long live nights like these
Long live, long live, long live, long live nights like these
