

Back & Forth

Becky Hill

[Chorus]

It's the same old story in this tug of war
(We go back and forth, we go back and forth)

But it ain't good for me

What we do this for?

We go back and forth, won't do this, no (oh, woah)

We go back and forth

We go back and forth (oh, woah)

We go back and forth

Won't do this, no

[Hook]

All, all we, all

All, all, always never tell her

All, all we, all

All, all, always never tell her

All, all we, all

All, all, always never tell her

All, all we, all

All, all, always never tell her[Verse 1]

You're only nice when you wanna be

You always leave me wondering, wondering

It's not as simple as you and me

Can never tell if I'm in love with him or lost with him[Post-Chorus]

Tryna find an in between it's all, it's all or nothing

You pull me back when you feel me slip away

Deceive me with your loving

[Chorus]

It's the same old story in this tug of war
(We go back and forth, we go back and forth)

But it ain't good for me

What we do this for?

We go back and forth, won't do this, no (oh, woah)

We go back and forth

We go back and forth (oh, woah)

We go back and forth

We go back and forth

Won't do this, no[Hook]

All, all we, all

All, all, always never tell her

All, all we, all

All, all, always never tell her

All, all we, all

All, all, always never tell her
All, all we, all
All, all, always never tell her[Verse 2]
With you, there's no reasoning
I'm done with fighting all the time, all the time
I'm tryna speak, you're not listening
Closed ears with open eyes, broken minds[Post-Chorus]
Tryna find an in between, it's all, it's all or nothing
You pull me back when you feel me slip away
Deceive me with your loving[Chorus]
It's the same old story in this tug of war
(We go back and forth, we go back and forth)
But it ain't good for me
What we do this for?
We go back and forth, won't do this, no (oh, woah)
We go back and forth
We go back and forth (oh, woah)
We go back and forth
We go back and forth
Won't do this, no more[Hook]
All, all we, all
All, all, always never tell her
All, all we, all
All, always never tell her
All, all we, all
All, always never tell her
All, all we, all
All, always never tell her
