Dust My Shoulders Off (feat. Timbaland)

Jane Zhang

Just had a bad day Had car trouble on the highway My stupid boss don't like me Spilled hot coffee on my blue jeans I'm low on money and ain't shit funny But it's still sunny outside So I keep smiling, I won't start wilin' I just keep living my lifeCan't keep me down, me down (It's only temporary) Can't make me frown, me frown (So I ain't even worried) Cause the world keeps spinnin' Life goes on and on I won't cry for long (Won't cry for long long long) Cause I'll still be winnin' When things are going wrong I turn on my favorite song And dust my shoulders (I dust my shoulders off) (I dust my shoulders off) (I dust my shoulders off) I don't worry 'bout nothing, just dust it off (I dust my shoulders off) (I dust my shoulders off) (I dust my shoulders off) I don't worry 'bout nothing, just dust it off You can't find your girlfriend Your boyfriend left you But the party's still going on Everybody here is saying "Dust your shoulders off" See him kissing in the kitchen by the bathroom But you don't let it phase you Go and hit the bar up, go and key his car up And tell him that it's karmaCan't keep me down, me down (It's only temporary) Can't make me frown, me frown (So I ain't even worried)Cause the world keeps spinnin' Life goes on and on I won't cry for long (Won't cry for long long long) Cause I'll still be winnin'

When things are going wrong I turn on my favorite song And dust my shoulders (I dust my shoulders off) (I dust my shoulders off) (I dust my shoulders off) I don't worry 'bout nothing, just dust it off (I dust my shoulders off) (I dust my shoulders off) (I dust my shoulders off) I don't worry 'bout nothing, just dust it offI ain't tripping off of drama All about my numbers Tell him get up out my face You don't even know me You don't even know me Save it for another day I ain't tripping off of drama All about my numbers Tell him get up out my face You don't even know me You don't even know me Save it for another dayNo big deal Win some and lose some And life gets real Won't last foreverCause the world keeps spinnin' Life goes on and on I won't cry for long (Won't cry for long long long) Cause I'll still be winnin' When things are going wrong I turn on my favorite song And dust my shoulders (I dust my shoulders off) (I dust my shoulders off) (I dust my shoulders off) I don't worry 'bout nothing, just dust it off (I dust my shoulders off) (I dust my shoulders off) (I dust my shoulders off) I don't worry 'bout nothing, just dust it off
