

# Drivin' All Night

Jake Owen

There was nothing as pretty in Panama City as you  
That's what I took away from that spring break that year  
And there wasn't no shortcut down the hill with you  
But it wasn't like it was hard talking me into Drivin all night, drivin all night  
Drivin like I'm bad out here  
Cheap motel's calling my name  
No way I'm stopping this Chevy  
Red Bull's takin my left foot heavy  
Still here round town, put it back in  
Good dog working hard, get a man blue, that's a way  
Drivin all night, drivin all night, drivin all night  
Just to hold you for a day  
You're what what a kiss that I still get drunk on  
You're a text, you're a call that falls out of the blue  
You're a snapshot in my head and on my phone  
And you ain't gotta ask twice, I'm already gone  
Girl, I'm gone Drivin all night, drivin all night  
Drivin like I'm bad out here  
Cheap motel's calling my name  
No way I'm stopping this Chevy  
Red Bull's takin my left foot heavy  
Still here round town, put it back in  
Good dog working hard, get a man blue, that's a way  
Drivin all night, drivin all night, drivin all night  
Just to hold you for a day Girl you ain't never too out of the way  
All you gotta do is say the word and I'll get to you  
I'll keep walking the road and ride on through  
Still here round town, put it back in  
Good dog working hard, get a man blue, that's a way  
Drivin all night, drivin all night, drivin all night  
Just to hold you for a day You keep me drivin all night There was nothing as pretty in Panama  
City as you
