

# All of It

Cole Swindell

Little footprints in the dust on the dashboard  
Radio still stuck on your station  
Still taste your kiss from this morning  
Girl you say there's another one waiting  
Hope it's a long one, break out the dawn one  
I want everyone you got  
Give me that "Lets get out of here go jump in the river"  
Girl show me what that rockin' body looks like in the firelight  
Wrap me up with all that love you been holding back your whole life  
Girl I wish you would just hit me with that  
Pretty little get me through tomorrow smile  
Bring on all the good with all the bad I'm all about it  
Anything and everything baby you could never bring enough of it  
I want all of it  
I wanna see you all city light lit up  
I wanna see you in a pair of cut-up jeans  
I wanna fall for all your magic  
Feel all your teardrops drippin' on me  
The sad ones, the happy ones  
I want everyone you got  
Give me that "Lets get out of here go jump in the river"  
Girl show me what that rockin' body looks like in the firelight  
Wrap me up with all that love you been holding back your whole life  
Girl I wish you would just hit me with that  
Pretty little get me through tomorrow smile  
Bring on all the good with all the bad I'm all about it  
Anything and everything baby you could never bring enough of it  
Yeah, I want all of it  
Baby, I want all of it  
All the time  
Everything you got I wanna make all mine  
Give me that "Lets get out of here go jump in the river"  
Girl show me what that rockin' body looks like in the firelight  
Wrap me up with all that love you been holding back your whole life  
Girl I wish you would just hit me with that  
Pretty little get me through tomorrow smile  
Bring on all the good with all the bad I'm all about it  
Anything and everything baby you could never bring enough of it  
I want all of it  
(I want all of it)
