

# State of Shock

**Ted Nugent**

And if you see my baby, tell her that I'm gone  
I've been missing in action, just to say "so long" Bye bye baby And if she wants to find me, she's  
out of luck

I'm in a state of confusion, She's in a state of shock  
Yes she is In a state of shock, that's where you'll find me, In a state of shock  
In a state of shock, that's where I'm cruisin, In a state of shock Come on Yeah she has lost her  
direction, she tried to make a buck  
In a state of confusion, In a state of shock  
She's In a state of shock, she goes crazy  
She's In a state of shock, she is confused  
She's In a state of shock, so confused.  
She's In a state of shock, losing her mind.  
She's In a state of shock...
