

# Nothing I Can't Do (feat. Lecrae & Trip Lee)

[Tedashii](#)

1 - Tedashii:]  
You don't know what I been through  
Lost it all and my rent's due  
Trouble, when it rains it floods  
In my pain no it ain't all good  
No but I tell them this  
I'm a witness  
That everything is made new  
So tell em' dawg I ain't through  
Feels like feels like this life just became a fight  
Yeah I'm in it they know it  
I know pressures on me  
Yeah there's pressure on me  
But tell em who ain't crack homie I can't do, there ain't nothin' I can't do  
There ain't nothin' I can't do  
There ain't nothin' I can't do  
I can't do, there ain't nothin' I can't do  
There ain't nothin' I can't do  
Look it ain't nothin' I can't do  
OK life, for most, we know that this is not paradise  
But we swear it's tight when she wear it right  
I feel the heat it's Miami Vice  
It's the rest in me to get the rest of me  
You start burnin for that but ain't no turning me back  
That's pressing me and they testing to me  
To see me fail and give me Hell so I'd be burnin in that  
Yeah right, life is an island which means we trapped in that  
But we cool cuz the view so nice and lax  
And like we don't feel the pain cuz' of laughing gas  
But one blast of that and you forget that this pain is real  
Yeah but no matter how good that feel  
Man this pain is a thing that kill  
Man I heard that so I swerve back  
Curve that so let me curve back  
Every time I feel that urge back  
We crossing paths where we merge at  
It drives we crazy but lately  
Man I feel like I can make it  
Cuz' last year I couldn't take it  
And this strength man I can say this  
I can't do, there ain't nothin' I can't do  
There ain't nothin' I can't do

There ain't nothin' I can't do  
I can't do, there ain't nothin' I can't do  
There ain't nothin' I can't do  
Look it ain't nothin' I can't do Might walk on water  
I won't lose a step  
Got-gotta go hard  
But I ain't gotta do it myself  
I can't do, there ain't nothin' I can't do  
Feelin like I can't lose  
There ain't nothin' I can't do Hold up  
What you say all that fame done gone to my head  
Like that same power that save me  
Can't raise me from the dead  
They get me reading thinking bout keeping peace  
While I'm raging war on myself  
I feeling myself then I'm killing myself  
I'm sipping on blood and I'm chewing on flesh  
Just chill out we don't want to hear that mess  
All that won't do that I can't do this  
Pain, death, hurt, hate we done been through this  
And I'm sure there's plenty more that I ain't been through yet  
But I don't care though, bring on the heavy metal  
I got a power living in me that'll never settle  
Never leave nor for sake I'm a bleed never break  
I'm a die come back with the keys to the safe  
Gotta peek sitting deep for the things that I face  
Can't erase God's ink wait clean with the paint  
And I'm stained in it when the pain hit me  
I would stain anything that you bring to me  
The letter tell me what I can't do faithfully  
The letter tell me what I can't do faithfully  
The letter tell me what I can't do faithfully  
I'm coming back from the dead what you saying to me  
I can't do it
