

Against the World

Brantley Gilbert

Those tears in your eyes, have got me seeing red
I hate how they get to you, with all the lies they spread
Intense small town talk, like the devil on your shoulder
It's over...baby it's over....Let em talk, let em talk baby
Cause girl i dont give a damn what they say
You're the one, the reason God made me...
I'm gonna love you anyway
If it hurts, just know we're gonna make it
I got your back, you got my heart girl
No matter what, you've got to remember...
It's you and me, against the world
They're gonna throw those sticks and stones, try to tear us right in two
Cuz we got what they want, yeah what we got is true
So let them do what they're gonna do, baby we can take it
We're gonna make it, Yeah we're gonna make itLet em talk, let em talk baby
Cause girl i dont give a damn what they say
You're the one, the reason God made me...
I'm gonna love you anyway
If it hurts, just know we're gonna make it
I got your back, you got my heart girl
No matter what, you've got to remember...
It's you and me, against the world
Let em talk, let em talk baby
Cause girl i dont give a damn what they say
You're the one, the reason God made me...
I'm gonna love you anyway
If it hurts, just know we're gonna make it
I got your back, you got my heart girl
No matter what, you've got to remember...
It's you and me, against the world
