

# Hey Lover

Charlie Wilson

Find what I was searching for, you're the perfect package  
But you make mine and more  
It's been hard to make  
Hanging out with all these other girls  
But it ain't my thing  
I'm gonna keep it real, girl I know that you'll be on with me  
Hey lover, love the way you're workin'  
Chemistry is perfect  
Let's talk here over babe  
So you can tell me what you like  
Hey lover, lover  
Fulfilling one another  
Let's go on undercover  
And break each other off, a little bit of love tonight  
Wondering what you're thinking 'bout  
But I ain't worried  
Knowing that I'm gonna make you mine  
But I'm not in a hurry  
Honey just relax and vie, enjoy the lovely bed  
Before the night is over  
I'm gonna hear you say  
Hey lover, love the way you're workin'  
Chemistry is perfect  
Let's talk here over babe  
So you can tell me what you like  
Hey lover, lover  
Fulfilling one another  
Let's go on undercover  
And break each other off, a little bit of love tonight  
Hey lover, love the way you're workin'  
Chemistry is perfect  
Let's talk here over babe  
So you can tell me what you like  
Hey lover, lover  
Fulfilling one another  
Let's go on undercover  
And break each other off, a little bit of love tonight  
Open your eyes, know we look sexy in each other arms?  
Can you feel me babe?  
When we together, ain't no pressure  
When you and me  
Ain't nothing  
I want you, hey, lover

Don't think I'm crazy  
Ain't nothing shame, I'm o this ground to make you my lady  
Ain't nobody better, can't nobody do it  
Can't nobody treat me like you do  
Ain't nobody better, can't nobody do it  
Can't nobody treat me like you doHey lover, love the way you're workin'  
Chemistry is perfect  
Let's talk here over babe  
So you can tell me what you like  
Hey lover, lover  
Fulfilling one another  
Let's go on undercover  
And break each other off, a little bit of love tonight  
Hey lover, love the way you're workin'  
Chemistry is perfect  
Let's talk here over babe  
So you can tell me what you like  
Hey lover, lover  
Fulfilling one another  
Let's go on undercover  
And break each other off, a little bit of love tonight
