Let It Snow (feat. Brian McKnight)

Boyz II Men

Let it snow Let it snow Let it snowIt's another Christmas holiday It's a joyous thing, let the Angels sing 'Cause we're togetherWe got a thing, can't let it slip away Go outside, it's raining sleet When our bodies meet I don't care about the weatherLet it snow, let it snow, outside it's cold But the fire's blazin' so, baby, let it snow Let it snow, yeah Let it snow, let it snow Come over here and help me trim the tree I wanna wrap you up, baby Then you'll see You're the only present I needThere's so much more Waiting for you in store From this precious day, I can gladly say There's no place that I'd rather beI know, you've found my everything Come a little closer God must have sent you down from HeavenLet it snow, let it snow Outside it's cold But the fire's blazin' So, baby, let it snow Let it snow, baby Let it snow I don't care what the weather thereLet it snow Let it snow Let it snowI don't care what the weather may be Only to introduce me As long as you're here with me, oh yeah I don't mind, I don't mind I don't care what the weather may be As long as you're here, with me
