

# Surround Sound

## Empire of the Sun

Lets flow together like water  
Til I can tell you probably  
Our great king wave is rolling  
Oh, I see Lets flow much harder than the sun  
Til all flames incendiary  
Like saving rays Im sleeping The light skips the sun now  
I only sound surround  
The light skips the sun now  
I only sound surround  
Lets push through four dimensions  
Til Ill resign to change  
My duty with no thinking  
Its not a way Lets seek and reach for greatness  
Here come all true and journey  
Lets resonate together The light skips the sun now  
I only sound surround  
The light skips the sun now  
I only sound surround The light skips the sun now  
I only sound surround  
The light skips the sun now  
I only sound surround  
The light skips the sun now  
I only sound surround  
The light skips the sun now  
I only sound surround
