

The Handler

Muse

You were my oppressor
And I,
I have become programmed to obey
Now, you are my handler
And I,
I will execute your demands
Leave me alone
I must dissociate from you Behold my transformation
And you are empowered to do as you please
My mind was lost in translation
And my heart has become a cold and impassive machine
Leave me alone
I must dissociate from you
I won't let you control my feelings anymore
And I will do
As I am told
And I am no longer afraid to walk alone
Let me go
Let me be
I must stand free from your grip
You will never own me
