

# Love You Long Time

Jazmine Sullivan

Nobody ever love me, quit like you  
Your love is like  
I got a real good dude and he loves me a lot And ain't no other man is gonna take his spot  
And I, I'm so happy you're mine So I'mma love you long time Let me love, let me love you long  
time  
Let me love, let me love you long time So let me love, let me love you long time  
Let me love, let me love you long time Let me love, let me love you time  
Let me love, let me love you long time So let me love, let me love you long time  
Let me love, let me love you long time  
I never knew someone like you, oh no  
And I never felt the way I do before, before, before I don't wanna loose ya What if I misuse ya  
If you ever left Babe I swear i would lose it  
Maybe I should cool it I know I'm acting kinda foolish  
Nobody ever love me, quite like you I got a real good dude and he loves me a lot  
And ain't no other man is gonna take his spot And I, I'm so happy you're mine  
So I'mma love you love time Let me love, let me love you time Let me love, let me love you  
long time  
So let me love, let me love you long time  
Let me love, let me love you long time  
Let me love, let me love you time Let me love, let me love you long time  
So let me love, let me love you long time Let me love, let me love you long time  
This is the sweetest thing I know, for sure And you, you give me reason, reason to hold on,  
hold, hold on  
I don't wanna loose ya  
What if I misuse ya  
If you ever left  
Babe I swear I would lose it  
Maybe I should cool it  
I know I'm acting kinda foolish  
Nobody ever love me, quite like you  
I got a real good dude and he loves me a lot  
And ain't no other man is gonna take his spot  
And I, I'm so happy you're mine  
So I'mma love you love time  
Let me love, let me love you time  
Let me love, let me love you long time  
So let me love, let me love you long time  
Let me love, let me love you long time  
Let me love, let me love you time  
Let me love, let me love you long time  
So let me love, let me love you long time

Let me love, let me love you long time
