

SAVAGES

ICE NINE KILLS

We are the savages
Eating you alive
The original
Villains in the night
Nowhere to run, nowhere to hide
We are the savages, we are the savages Out on the cringe of society's where we lie
Cause we're lethal liabilities till we die
Won't heed the call of the law won't follow the pack
Because the sound of the saw is our soundtrack Hey, hey, hey
This is our battle call
(Mess with the horns and you get the devil)
Hey, hey, hey
You're not invincible
(Mess with the horns and you get the devil)
We are the savages
Eating you alive
The original
Villains in the night
Nowhere to run, nowhere to hide
We are the savages, we are the savages Along the cringe of society is where we lie
We're lethal liabilities till we die
The other side of the tracks if you know what's good
Cause you won't make it out of our neighbourhood Hey, hey, hey
This is our battle call
(Mess with the horns and you get the devil)
Hey, hey, hey
You're not invincible
(Mess with the horns and you get the devil)
We are the savages
Eating you alive
The original
Villains in the night
Nowhere to run, nowhere to hide
We are the savages, we are the savages We are the savages
Eating you alive
The original
Villains in the night
Nowhere to run, nowhere to hide
We are the savages, we are the savages We are the savages
Eating you alive
The original
