

# The Way You Talk (feat. Gotye)

Bibio

I wouldn't believe you  
But there's something about the way you talk  
I wouldn't trust you  
But there's something about the way you talk  
I couldn't live with you  
But there's something about the way you talk  
I couldn't love you  
But there's something about the way you talk  
I wouldn't believe you  
But there's something about the way you talk  
I wouldn't trust you  
But there's something about the way you talk  
I couldn't live with you  
But there's something about the way you talk  
I couldn't love you  
But there's something about the way you talk  
I wouldn't believe you  
But there's something about the way you talk  
I wouldn't trust you  
But there's something about the way you talk  
I couldn't live with you  
But there's something about the way you talk  
I couldn't love you  
But there's something about the way you talk  
But there's something about the way you talk  
But there's something about the way you talk  
But there's something about the way you talk  
But there's something about the way you talk  
But there's something about the way you talk  
But there's something about the way you talk  
But there's something about the way you talk  
But there's something about the way you talk  
But there's something about the way you talk
