

All Around the World (feat. Bryn Christopher)

Matoma

You and me were never meant to be forever, nah, nah
Take control for one night, you and I could head home together
Bring the energy, put some memories in my mind
Dancing in the moonlight, don't be polite, it's now or never The way you roll your eyes
So low, I get so high
I think you're crazy
Think I like it, yeah The way that body moves
So cold when you cut loose
Some kind of crazy
I can't fight it So take me, baby
Love me all around the world
Show me places I've never been
Love me all around the world
All around the world
All around the world Something beautiful about the way you feelin' yourself
Give me all over your truth, roll me out, I'm down for whatever
Dancing over my way, you do me like no one else
No one moving like you, honey, you are my new forever The way you roll your eyes
So low, I get so high
I think you're crazy
Think I like it, yeah The way that body moves
So cold when you cut loose
Some kind of crazy
I can't fight it So take me, baby
Love me all around the world
Show me places I've never been
Love me all around the world
All around the world
All around the world The way you roll your eyes
So low, I get so high
I think you're crazy
Think I like it, yeah The way that body moves
So cold when you cut loose
Some kind of crazy
I can't fight it So take me, baby
Love me all around the world
Show me places I've never been
Love me all around the world So take me, baby
Love me all around the world
Show me places I've never been
Love me all around the world All around the world
