

Help (CID Remix)

Galantis

At first I didn't get you
Too contradicted to figure out I didn't expect to want all the things I could live
without
I wouldn't do it for anyone, you should know that
But since I loved you since 21, you should know that
When the wild comes calling on you, help is on the way
When the high gets horny for you, help is on the way
On the way, help is on the way When your heart don't bleed the way it used to, help is on the
way
Help is on the way
Help is on the way
Help is on the way
At first I didn't see through, all noise that I could care less about
I didn't expect to want all the things I could live without
I wouldn't do it for anyone, you should know that
But since I loved you since 21, you should know that
When the wild comes calling on you, help is on the way
When the high gets horny for you, help is on the way
On the way, help is on the way
When your heart don't bleed the way it used to, help is on the way
Help is on the way
Help is on the way
Help is on the way
