

# Me on You

Nicky Romero & Taio Cruz

I just want you  
Excuse me if I'm way too forward  
I just want you, yeah  
And pour me some truth  
Filling my body, let's make it a hundred proof, yeah Maybe let me lose myself in you tonight  
'Cause I've been waiting so damn long to get to you  
Nothing's ever felt as real as you and I  
You got me faded, intoxicated-cated  
Pour a little me on you  
Pour a little me on you  
Something about you  
That makes me body react to the way you move, yeah  
I wanna taste you  
Your skin is my liquor and this round is overdue, yeah And I just wanna lose myself in you  
tonight  
'Cause I've been waiting so damn long to get to you  
Nothing's ever felt as real as you and I  
You got me faded, intoxicated-cated  
Pour a little me on you  
Pour a little me on you  
Pour a little me on you, on you Maybe let me lose myself in you tonight  
'Cause I've been waiting so damn long to get to you  
Nothing's ever felt as real as you and I  
You got me faded, intoxicated  
I've been waiting so damn long to get to you  
Pour a little me on you  
Pour a little me on you  
Pour a little me on you  
Pour a little me on you  
Pour a little me on you
