

# Kinda Girls We Like

## New Edition

Ooh, ooh, ooh  
Ooh, ooh, ooh  
Ooh, ooh, ooh We came out before  
Now we're back again  
Singin' the kinda girls we like  
Now is this the end?  
We're about to blast off  
So hold on real tight  
While Michael tells you  
The kinda girl he likes Hey, I like a girl who likes to tease  
Not the kinda girl who's always there to please  
The kinda girl who makes up her mind  
Who's ready at her given time  
The kinda girl whom you always think about  
That's the kinda girl whom you can't be without  
I'm Michael B, that's the girl for me  
She's the only girl I could never leave You've heard one description  
Now, listen to this  
Because this one for sure  
You can't afford to miss  
So turn up the volume  
And open your ears  
Because this next description  
Is for you, my dear Well, my friends call me Flash B  
And here's the kinda girl that's just for me  
I like a girl that is right on time  
She's also sweet and she's oh, so fine  
I like a nice young lady with beautiful hair  
So if you want to be with Bob you gotta care  
She give me her love, she give me her time  
This kinda girl is mine all mine You've heard two descriptions  
Now here comes the third  
And it's liver than anything  
That you've ever heard  
We love all you girls without any doubt  
And as long as you know this  
You won't feel left out I like a nice young lady with class and style  
And when I'm with her she makes it worth my while  
You know that, you see, has to be  
Just the right girl for Ricky I like a nice young lady who likes to have fun  
So if you fit this description  
I said, "Hey girl, don't hesitate"

If you want me, I'll be your playmate "I'm Ronnie D and I'd love to meet  
A girl that would knock me off my feet  
A girl that's fine and divine  
A girl that wants to be all mine A girl that can grant my every wish  
Is the girl I want to love and cherish  
I promise you that if you are true  
Tell me girl if it could be you You've heard the last  
We're running out of time  
But wait just a minute there's one last line  
Now listen to this and keep that in mind  
And we're sure that this next rap  
Will blow your mind Yes, I like a girl that will stay with me  
A girl that's a pretty sight to see  
A girl with style and much finesse  
A girl that's smart and wants the best I like a girl with a pretty smile  
A girl that stands out in a pile  
But most of all on top of all above  
Ralph needs a girl that he can love We came out before  
Now, we're back again  
Singin' the kinda girls we like  
Now is this the end?  
Now I'm sure you'll agree  
Our deep words are divine  
But if you fit the description  
You'll do just fine fine fine fine fine fine
